Residential Peak Surcharge

Effective January 16, 2022 customers who meet either of the following two conditions will be charged a Peak Residential Delivery Fee beginning January 16. The Peak Residential Fee will be assessed in addition to the customers current residential surcharge on all residential shipments. For invoicing, the peak fees are combined with customer’s current charges.

The following table outlines the Peak Residential Surcharge that will be applied to residential volume effective January 16 where a customer meets the condition to become eligible for the peak fee.

Charge	Baseline Period	Peak Index	Charge Per Shipment
Peak Residential Surcharge	March 2021	110 to 199	\$0.30
		200 to 300	\$0.60
		Over 300	\$0.90

Condition 1:

- Customers that shipped more than 7,000* weekly average packages from March 1, 2021 – July 16, 2021 or any week thereafter while peak period remains effective and weekly volume exceeds the peak index values listed in the table above. Residential Peak Surcharge will apply to all residential shipments based on the Peak Index achieved as determined by Loomis Express in its sole discretion.

Condition 2:

- Customers with growth in volume at a Peak Index value of 300 or more compared to the Baseline Period from January 16, 2022 onward while the Residential Peak Surcharge remains effective. Residential Peak Surcharge will apply to all residential shipments based on the Peak Index achieved as determined by Loomis Express in its sole discretion.

Peak Index is calculated by the following formula:

$$\text{Peak Index} = (\text{Measured Weekly Volume} / \text{Baseline Period Weekly Volume}) \times 100$$

*For weeks with holidays, weekly average value will be prorated based on the Loomis Express normal operating days during non-holiday weeks.
